

The HWH[®] SpaceMaker[®] Dual-Direction Hydraulic Storage-Slide

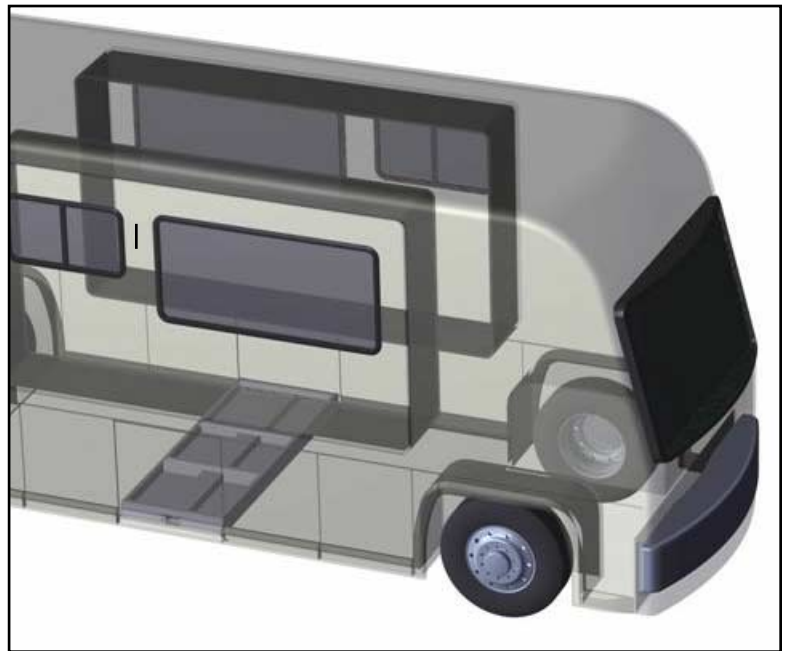

One Storage Slide For *Both* Storage Sides

HWH has invented a revolutionary new dual-direction hydraulic powered storage compartment slide-out. No more crawling into tight compartments with our dual-direction feature.

Features and Benefits

- **Dual-direction extension** allows you to access every inch of the bay without crawling in. (Can extend an 8' compartment out 5' from either side of the coach.)
- When extended, the storage compartment **extends out past slide-out rooms**, allowing for easy access.
- Handles **heavy-duty loads** up to 1,000 pounds (evenly loaded).
- **Hydraulic power** eliminates back-work.
- **Smooth extension and retraction.**

*Storage Slide
retracted during travel.*

Taking you to the next level.

Specifications & Features

HWH[®] Dual Direction Hydraulic Storage Slide

Specifications...

WEIGHTS (lbs.)	
Mechanism Assembly	230.00
Gross Weight	230.00
DIMENSIONS (in.)	
Width	36.50
Height	5.53
Length (Retracted)	96.00
Max. Extension (Per Direction)	60.00
LOAD * (lbs.)	1000 (Evenly Distributed)
FORCE of CYLINDER (lbs.)	
Max. Extending	2,100.00
Max. Retracting	2,100.00
PRIMARY APPLICATION	
Storage	Above Floor
